

# Direct Deposit ePay System Manual

The employees at the University of Utah are now able to change their own Direct Deposit information through Campus Information Services using the Direct Deposit Self Service. The address to the portal is: <https://gate.acs.utah.edu>

If you have any question on how to log into CIS, please call 581-4000

## How to Access Payroll Information

- Log into Campus Information Services
- Click on Payroll, Taxes and Salary

- Select Direct Deposit

This option will let you set up a new account, change your direct deposit information, delete accounts, and suppress you advice.

**Note:** You will not be able to completely end Direct Deposit in the self service application you must have a balance row at all times.

## How do I set up only one account?

### Direct Deposit

LYNN,MEGAN

Direct Deposit Detail						
Account Type	Routing Number	Account Number	Deposit Type	Amt/Pct	*Deposit Order	

[Add Account](#)

[Return to Payroll and Compensation](#)

If you are a first time user, click the **Add Account** button.

- Select either Checking or Savings account
- In the Deposit Type box, you will need to select **Balance**. (Know that if you try to select anything else it will automatically change to balance).
  - Balance means everything that is left after any other priorities are taken out, so in the case of only one account with no other priorities it would mean the entire net pay.
- You will not need to put anything in the Amount/Percentage box for the balance row.
- Enter the bank transit/routing number. See example below for determining routing and account number.

### Check Example

- 1 - Routing Number
- 2 - Account Number

- Enter your account number. (DO NOT include dashes, put in numbers only)
- Your Deposit Order number for your Balance row must be 999.
- Click the Save button. You will get the following confirmation message.

**Direct Deposit**

---

**Save Confirmation**

The Save was successful.

However, due to timing, your change may not be reflected on the next paycheck.

OK

## How do I set up more than one account?

### Direct Deposit

**\*Account Type:**

**\*Deposit Type:**

**Amount/Percent:**

**Routing Number:**  [View check example](#)

**Account Number:**

**Deposit Order:**  (example: 1 = first account processed)

\* Required Field

[Save](#)

[Return to Direct Deposit](#)

Pressing 'Return' will not save your changes.

- Select Checking or Savings Account
- Choose a percentage or an amount for each account. If the percentage is less than 100%, the balance of the pay will be put in the account marked **Balance** or if an amount is taken and there are no other priorities anything that is left from your net pay would also go into your Balance account.
- If the percentages equal more than 100%, you will get an error message stating that the distributions total more than 100% and you need to correct the error.
- Also know that percentages are based strictly on your NET amount. If your net total was \$500 and you wanted \$50 going to one account (or priority one) and then the rest of it split as 20% going to your second account (priority two) and the balance to your third account, you need to know that it will deduct the \$50 first, next the system will take what would be a total of 20% of your net pay (\$100 in this case), not 20% of what is left (\$90) and put it in your second priority, and the remainder into the balance.
- When you are done adding or editing account information, please double check the transit number and bank account number/s.
- Enter the bank routing/transit number.
- Enter your account number.
- You will need to select a level of Deposit Order. Deposit Order 1 will be deposited before Deposit Order 3. So if you wanted three accounts set up with \$100 going to Bank One, \$300 going to America First, then the remainder going to the University of Utah Credit Union, you will need to have Bank One be Deposit Order 1, America First to be Deposit Order 2, and University of Utah Credit Union to be Deposit Order 3, or 999. The 999 row is a catch all row, in case after the other Deposit Orders there is money left over, the money will be put here. If your check is ever short, the money will be deposited in the order of the Deposit Orders.
- Click the Save button to save your changes.

## How can I change my direct deposit information?

### Direct Deposit

LYNN,MEGAN

Direct Deposit Detail							
Account Type	Routing Number	Account Number	Deposit Type	Amt/Pct	*Deposit Order		
<a href="#">Checking</a>	124002971	78451425	Percent	80%	1	<a href="#">Edit</a>	<a href="#">Delete</a>

Direct Deposit

---

### Delete Confirmation

 Are you sure you want to delete this Deposit Account: 78451425?

**Note:** You will not be able to delete the account marked **Balance**, but you can edit the balance account.

## Can I cancel direct deposit?

**No,** You are **not** allowed to cancel your direct deposit through the self service. Direct Deposit of pay is mandatory.

## Advice Print Suppression

The Payroll Department has implemented a new service. All employees can now request the suppression of printing their Advice forms. Please remember that you will still have access to all your check information online and it can be viewed 24 hours a day.

The suppression of printing the Advice form will help reduce the amount of advices that are printed and not picked up by employees or are just thrown away.

If you are interested in no longer having your Advice printed please send an email with your name and id number to [kronospr@hsc.utah.edu](mailto:kronospr@hsc.utah.edu).

## Special Check Direct Deposit Option

Employees now have the choice to receive their special checks as either a live check or to have it directly deposited. Please note the following about the direct deposit option:

- The direct deposit for the special check will be deposited the next business day and can take an extra day to be deposited into the employee's account depending on how the posting of received funds works within the banking institution where the money is sent.
- Also, you will want to take into consideration when setting up multiple accounts/Deposit Orders, the direct deposit for your special check will follow the same Deposit Orders as your normal check.

**For example**, if you receive a special check deposited aside from your regular check, you may want to do something similar to the following situation.

Assume you receive \$50 in a special check that was missed on your regular check that you would like to be direct deposited and you have a \$75 loan payment coming out of each check and the rest of your money going to your checking account, you may want to set your priorities like the following:

- Deposit Order 1
  - \$50 to your checking account (that way when you get the deposit for the cell phone allowance it will deposit into your checking account).
- Deposit Order 2
  - \$75 to your loan account (so on your regular check that will still come out after the \$50 to your checking).
- Deposit Order 999 (balance row)
  - The remainder to your checking account (so anything left after your loan and the original \$50 deposited into checking goes here).

**Note:** For employees with special circumstances, like the **Cell Phone Allowance**, you will want to follow the same pattern as above. (Assuming the amount you will receive will be roughly \$50, set up your first account to the account you would like that to always go to, even if you have to repeat that as your balance row account.)

## **Important Dates**

- The Direct Deposit Self Service system is turned off during Payroll processing.
- Payroll processing begins on the final business day of the pay period at 5:00 PM. The final day of the pay period is on the 15<sup>th</sup>, and the last day of the month.
- Payroll processing continues until paychecks are issued. Pay day is on the 7<sup>th</sup>, and 22<sup>nd</sup> of each month. If either of these falls on a weekend, pay day will be on the Friday prior to these dates.
- If you have further questions please call Payroll at 581-7873.
